MEMORANDUM FOR: FY/Ln.

SUBJECT : Evaluation of Radio Free Russia

1. In accordance with your memorandum of 23 April 1952, I have submitted a content analysis of the output of Radio Free Russia from February through December, 1951, to [] for comment.

25X1A

2. [] briefly reviewed the analysis and made the following general comments:

"This, in general, seems to me to be very good propaganda.

"It is almost impossible to make any detailed comment on it without knowing more about several things, such as—why comment is requested on the analysis, what is PSB's particular interest, the purpose of the propaganda, what U. S. policy is on meshing this with other propaganda, means and extent of control over it, etc. I know some of those things, but don't believe further comment from me would be profitable without some knowledge of the context of the request on me.

"I will be glad to talk with anyone on this subject if they wish."
